AMENDMENTS TO THE CLAIMS

1. (Original) A method for delivering a communication protocol to an electronic device, comprising:

physically attaching a first electronic device having a first communication protocol to a second device having a plurality of communication protocols, the plurality of communication protocols including the first communication protocol and a second communication protocol;

establishing communication between the first and second devices using the first communication protocol;

transferring the second communication protocol from the second device to the first device;

installing the second communication protocol on the first device; and switching to the second communication protocol for further communication.

- 2. (Original) The method of claim 1 wherein the first and second communication protocol are software communication protocols.
- 3. (Original) The method of claim I wherein the first and second electronic devices are handheld devices.
- 4. (Original) The method of claim 1 wherein the established communication is point-to-point communication.
